Resolution of board of directors authorizing listing application
Listing application and other documents, including:
• Securities report for listing application
• Articles of incorporation
• Annual reports
• Business plan
About three to four months
Listing examination
Approval of listing by TSE (public announcement)
About one month
Listing date
Public offering procedure
File the securities registration statement with Kanto Local Finance Bureau
(15 days)
Effective date of the securities registration statement
Public offering and sales completed
Notes:
• This timetable is a typical example of the listing process and is subject to change. The actual schedule may be shorter than this example if an applicant company submits all the listing application documents that the TSE deems necessary before filing its listing application.
• The TSE will examine the regulatory system of the company's home country before conducting the listing examination, when the company is the first from its country to apply.
